

HealthFrame™
Focusing on Your Family's Health Picture

Managing your children's healthcare

- Birth details
 - Was the baby delivered via cesarean?
 - Was the baby full-term?
- Details of your child's growth and development:
 - When did your child speak for the first time?
 - When did your child walk for the first time?
 - What's your baby's height and weight percentile?
- Contact information for pediatricians, specialists, emergency and information services
- Appointments with pediatricians and specialists
- Immunizations
 - Is your child up-to-date?
 - What's the date of your child's last tetanus shot?
- Allergy and conditions
 - Symptoms, treatments, medications

How can HealthFrame help?

- Organize all doctor *appointments, tests, and special dates* using HealthFrame's **Calendar**
- Communicate any *Family History* and pre-existing *conditions* to your child's pediatrician or specialist (HealthFrame's **Reports**)
- Prepare for your children's doctor's *visits* (write down all your questions/concerns) and keep better track of your medical advise – HealthFrame's **Visit** wizard
- Keep track of your children's development milestones or health-related activities using HealthFrame's **Journals**
- Get *customized health information* using HealthFrame's **Medical Reference Library**
- Keep track of your child's *immunization record* using HealthFrame's **Immunization Wizard**

Home > Health > Tests > Test (New)

You are adding information about a medical test you have taken or a set of health related measurements (like your weight, blood pressure, or glucose, etc).

It's best to specify the test type first, using the test type picker () button. This will tell HealthFrame what values to use in the 'Measurements' section.

Summary

Type: Skeletal X-ray Of Ankle And Foot

Notes: Billy hurt his ankle playing baseball

Ordered

Administered

Measurements

You have not yet added any measurements. Click the 'Add New' pushbutton below to add a new measurement (e.g. height, weight, or any other value appearing on a test result on a printed test report).

The screenshot shows the HealthFrame Explorer interface for a patient named Jimmy Taylor. The main content area displays the 'Condition (Ear Infection)' page. Under the 'Medical Reference Library' section, the 'US National Library of Medicine (UMLS Information)' is shown, including the UMLS Code (C0699744) and a description: 'invasion and growth of microorganisms in the ear; may be due to cellular injury; may result in hearing loss or deafness.' A red circle highlights the 'MedlinePlus Lookup' icon, with a red arrow pointing to the MedlinePlus search results window.

The screenshot shows the MedlinePlus search results for 'Ear Infection' in Microsoft Internet Explorer. The search results are displayed in a list format under the heading 'Search results found in:'. The results include:

- Health Topics (29)
 - Ear Infections (29)
 - Ear Disorders (16)
 - Hearing Disorders and Deafness (32)
 - Hearing Problems in Children (19)
 - Infant and Toddler Health (15)
 - Show all Health Topics
- Drug Information (500)
- Medical Encyclopedia (114)
- News (0)
- Other (0)

On the right side, there are sections for 'Health Topics' and 'Ear Infections' (National Library of Medicine), listing specific topics like 'Swimmer's Ear (Otitis Externa)' and 'Otitis Media (Ear Infection)'. A red arrow from the HealthFrame Explorer points to the 'Ear Disorders (16)' link in the search results.

The screenshot shows a web application window titled "HealthFrame Explorer [Jimmy Taylor]". The interface includes a menu bar (File, Edit, Navigation, Page, Options, Help) and a toolbar with various icons. A left-hand navigation pane is titled "Views" and contains sections for "Home", "Basic Information", "Calendar", "Encounters", "Health", "Journals", "Providers", and "Reports". The main content area displays the "Summer Camp and Activities Form Report" for Jimmy Taylor, dated 4/12/2005. A message box at the top of the report area states: "You can configure what information will appear in your Summer Camp and Activities Form by opening the content groups like 'Configure Allergies' etc, and setting checkboxes. Then print that form out using the 'Print Form' button at the bottom of this page." The form itself is titled "Summer Camp and Activities Form (4/12/2005)" and contains the following sections:

- Identification:** Name: Jimmy Taylor
- Basic Information:** Age: 1, Birth: 12/12/2003
- Allergies:** none known
- Conditions:** Ear Infection
- Medications and Dietary Supplements:** none
- Immunizations:**
 - Influenza Vaccine (none)
 - Polio (IPV) Vaccine (none)
 - Diphtheria-Tetanus (Td) Vaccine (none)
 - Haemophilus Influenzae Type B (Hib) Vaccine (none)
 - Hepatitis B Vaccine (12/12/2003, 2/12/2004, 12/13/2004)
 - Measles-Mumps-Rubella (MMR) Vaccine (12/13/2004)
 - Varicella (Chickenpox) Vaccine (none)
 - Pneumococcal Vaccine (none)
 - Diphtheria-Tetanus-acellular Pertussis (DTaP) Vaccine (2/12/2004, 4/13/2004, 6/10/2004, 4/12/2005)
- Healthcare Providers:** Dr. Fitzgerald (Pediatrician)
- Emergency Contacts:** none
- Health Insurance:** none

At the bottom of the left-hand pane, there are sections for "Suggestions" and "Open Pages", with the "Open Pages" section listing the current report and other related items.
